The Patch Boys offer spring home improvement tips

(WXYZ) — For over a decade, The Patch Boys has been specializing in drywall and ceiling repair jobs for homeowners throughout the United States.

From the beginning, the company has focused on the small drywall, sheetrock, and plaster repair and installation projects that most larger repair and construction

companies simply won't take on. Because of this focus, they've been able to develop and perfect their process of professional drywall repair to ensure top-quality, seamless results every time.
